TO CLEAN
WATER**

That's more than a billion people.

VISIT US AT CABANA C 1833 AT HD BOUTIQUE, SEPTEMBER 16-18, MIAMI BEACH

NOW YOU CAN MAKE A DIFFERENCE.

AIRDYE™ TECHNOLOGY CAN SAVE TRILLIONS OF GALLONS OF WATER A YEAR FROM POLLUTION.

AirDye technology is a way to dye textiles without the use of water. Compare that to traditional dyeing which poses a catastrophic threat to the world's clean water. AirDye technology is the ideal alternative to traditional dyeing and decorating processes. The end product is beautiful, equal or better in quality, and it costs no more than traditional methods.

That makes it easy for designers and architects to make the right choice. Just specify AirDye when ordering for any hospitality textile – from curtains to room dividers to ballroom chair covers...

Save money.
Create beauty.
Save the planet.

[save water]

[save energy]

[be beautiful]

[reduce air pollution]

By choosing AirDye for this hotel room, you have saved
637 gallons of water, 268 megajoules of energy,
and 15 kilograms of greenhouse gas.
